

ELearning : A complete Learning Management System

Landing Page :

The screenshot shows the ELearning landing page at localhost:3000. At the top, there's a navigation bar with links for Home, Courses, About, Policy, FAQ, and a user icon. Below the navigation is a large circular illustration of a person sitting at a desk, working on a laptop, with a potted plant to the left. To the right of the illustration is a search bar with the placeholder "Search Courses...". Below the search bar is a testimonial section showing two user icons and the text "500K+ People already trusted us. [View Courses](#)".

The screenshot shows the ELearning landing page at localhost:3000. The main heading is "Expand Your Career Opportunity With Our Courses". Below it are three course highlights:

- Quantum Computing Potential**: This card features a central blue circle with "Quantum Computing Potential" and surrounding colored circles for "Optimization Tasks", "Quantum-Datasets Simulation", "Privacy-Preserving Techniques", "Model Training Acceleration", "Non-Classical Data Representations Exploration", and "Resource Efficiency". It includes a "Test" section with a 5-star rating, "10\$ 20\$" price range, "2 Students", and "1 Lectures".
- Rujul-Testing**: This card shows a network diagram with a "Server-PT Server" connected to a "Network" which then connects to multiple "CLIENTS" labeled "Phone-PT", "PC-PT", and "Laptop-PT". It displays "0 Students", "1 Lectures", and a price of "100\$ 110\$".
- Cloud IAS**: This card shows a photograph of a modern building at night.

 **Gene Bates**
Student | Cambridge university 

I had the pleasure of exploring E-learning, a website that provides an extensive range of courses on various tech-related topics. I was thoroughly impressed with my experience, as the website offers a comprehensive selection of courses that cater to different skill levels and interests. If you're looking to enhance your knowledge and skills in the tech industry, I highly recommend checking out E-learning!

 **Verna Santos**
Full stack developer | Quarter Ltd. 

Thanks for your amazing programming tutorial channel! Your teaching style is outstanding, and the quality of your tutorials is top-notch. Your ability to break down complex topics into manageable parts, and cover diverse programming languages and topics is truly impressive. The practical applications and real-world examples you incorporate reinforce the theoretical knowledge and provide valuable insights. Your engagement with the audience fosters a supportive learning environment. Thank you for your dedication, expertise, and passion for teaching programming, and keep up the fantastic work!

 **Jay Gibbs**
computer systems engineering student | Zimbabwe

 **Rosemary Smith**
Full stack web developer | Algeria 

Your content is very special. The thing I liked the most is that the videos are so long, which means they cover everything in details. for that any person had beginner-level can complete an integrated project when he watches the videos. Thank you very much. Im very excited for the next videos Keep doing this amazing work

 **Laura McKenzie**
Full stack web developer | Canada 

Join E-learning! E-learning focuses on practical applications rather than just teaching the theory behind programming languages or frameworks. I took a lesson on creating a web marketplace using React JS, and it was very helpful in teaching me the different stages involved in creating a project from start to finish. Overall, I highly recommend E-learning to anyone looking to improve their programming skills and build practical projects. E-learning is a great resource that will help you take your skills to the next level.

Frequently Asked Questions

Student Profile page:

The screenshot shows the student profile page with the URL localhost:3000/profile. The top navigation bar includes links for Home, Courses, About, Policy, FAQ, and a user icon. A "Finish update" button is visible in the top right.
